MANAGE T LEVEL RESULTS

Service overview and key deadlines

Manage T Level Results service

- The Manage T Level Results service captures and stores component level results data, calculates overall T Level results and issues certificates and statements of achievement (SoAs) to providers
- Both awarding organisations (AO) and providers play a role in T Level results and certification and are therefore required to input data into the service by specific deadlines.
- Service data is shared directly with UCAS to inform learner progression into Higher Education.
- We continue to listen to feedback from users to deliver service enhancements that make the user experience more effective and efficient.

The screenshot shows the GOV.UK website for the 'Manage T Level results' service. At the top is the GOV.UK logo. The main heading is 'Manage T Level results'. Below this, it states that the service is run by the Education and Skills Funding Agency (ESFA), an executive agency of the Department for Education (DfE). It explains that the service is for awarding organisations and providers who deliver T Level qualifications. There are two main sections: 'Awarding organisations (also known as exam boards) can use this service to:' and 'Providers (for example, schools and colleges) can use this service to:'. Each section has a list of tasks. A 'Start now >' button is visible. At the bottom, there is a 'Before you start' section with links to 'Awarding organisation roles' and 'Provider roles'.
