V LEVELS T-LEVELS

Introduction

In 2026, The Department for Education published the Post-16 Pathways Implementation plan which sets out the delivery of new V Levels, level 2 pathways and T levels that will be available to teach from 2027.

This asset pack has been created to help and support explaining these as post-16 options to students, parents and employers. These materials and social media assets provide content to:

- Highlight and explain these newly reformed qualifications
- Be integrated into the communications activity of education and training providers

It includes ready-to-use messaging, downloadable assets and practical guidance to support consistent communication.

Who is this pack for?

This pack is designed for:

- Schools and academies, including those with sixth form provision
- Further education colleges
- Sixth form colleges
- Independent training providers
- Careers leaders and careers advisers
- School and college communications teams

What does the pack include?

The pack includes:

- Key messages and background information
- Ready to use newsletter and website copy
- Employer engagement content
- Frequently asked questions
- Explainer leaflets
- Posters and visual assets
- Social media content and stories
- Links to further resources

Quick start guide

If you're new to communicating post-16 pathways, start with:

- Background
- Key messages
- Communication guidance

Then select assets that best suit your audience and channels.

SUGGESTED ACTIVITY

SOCIAL MEDIA

- Use story assets and prepared captions
- Add provider-specific course links
- Post one awareness message per week
- Signpost students to further information e.g. GOV.UK guidance

OPEN DAYS AND CAREERS EVENTS

- Display and use pathway posters
- Print explainers
- Use FAQs on information stands

STAFF BRIEFINGS

- Share key messages
- Share explainers to support understanding
- Familiarise teachers and advisers with progression routes

WEBSITE

- Update your website
- Add a 'New qualifications from 2027' page
- Use the copy provided (slide 7)
- Include local course information
- Link to FAQs, explainers and GOV.UK

PRINT AND DISPLAY IN HIGH TRAFFIC AREAS

- Reception
- Careers hub
- Sixth form/common room
- Year 10/11 spaces

EMAIL/NEWSLETTER UPDATE

- Use story assets and prepared captions
- Add provider-specific course links
- Post one awareness message per week
- Signpost students to further information e.g. GOV.UK guidance

RECRUITMENT CAMPAIGNS

- Copy, paste and adapt the newsletter text (slide 7)
- Add your planned qualifications
- Send to parents, carers and students
- Include GOV.UK and provider links

Background

Clearer routes and choice. Qualifications that reflect different strengths and ambitions.

The government is reforming post-16 qualifications to create a clearer system that supports progression into further study, skilled employment, further training and higher-level learning.

These reforms recognise that young people have different strengths, interests and ambitions, and aim to ensure every student can find a pathway that is right for them.

Why reform is needed

- England's post-16 qualifications system must respond to a changing world.
- Employers are facing skills shortages, young people are navigating increasingly complex career routes, and technology and artificial intelligence are reshaping the labour market.
- Nearly 900,000 additional skilled workers will be needed in priority sectors by 2030.

From **2027**, post-16 students will have access to:

- **New V Levels**, which will provide a high-quality **vocational** route alongside existing **A Levels (academic)** and **T Levels (technical)** at level 3.
- **Level 2 pathways** through **Foundation Certificates** and **Occupational Certificates** into **further study** at **level 3** or **skilled work**.

The reforms are designed to:

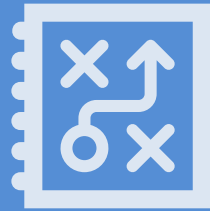

- Create a clearer qualifications system to give young people clear choices at age 16.
- Support progression into further study, training and skilled employment
- Create a system where academic, technical and vocational pathways are equally valued.
- Help every student access a pathway that suits their goals.

Key messages

Clear routes: every young person deserves a clear path to success.

Young people should be able to see where their choices could lead. The new post-16 pathways provide clearer routes into further study, apprenticeships, higher education and skilled employment.

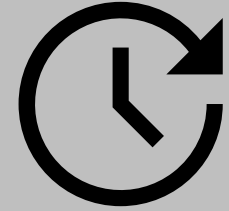

Valued pathways: every route matters.

Academic, technical and vocational pathways will be valued equally, recognising different talents and strengths and giving young people confidence that their chosen route matters.

Strong progression: supporting every step into the future.

Qualifications are designed to help young people to progress and move forward towards further learning, apprenticeships, university or employment.

Skills for future careers: building skills, confidence and opportunity.

Designed with employers and higher education, these qualifications help young people gain knowledge, skills and experience needed for higher level study and skilled jobs in a changing economy.

1

- **Be clear** – use plain English and avoid technical language wherever possible.
- **Focus on opportunities** – talk about where the qualifications can lead rather than how the reforms work.
- **Build confidence** – many parents and students will be hearing about these qualifications for the first time.
- **Use reassuring language** – students care about future opportunities and want to know where qualifications can lead, parents want confidence in progression opportunities, employers want reassurance about skills, standards and readiness for work.
- **Signpost to official information** – direct audiences to GOV.UK for detailed guidance and updates.
- **Use and adapt the materials** – for open days, careers fairs, parent/carer evenings, school outreach, websites and social media.
- **Accessibility** – Make sure your content is accessible. Follow GOV.UK and DfE accessibility guidance when publishing online content and printed materials.

2

Before publishing communications, ask:

- ✓ Would someone with no knowledge of qualifications reform understand this?
- ✓ Does this explain benefits clearly?
- ✓ Have we avoided jargon?
- ✓ Have we directed people to official information?
- ✓ Does this sound encouraging and accessible?

Newsletter/web copy

This is copy that you can include in your newsletter or Intranet or on your website to help to explain Post-16 Qualifications.

New post-16 qualifications are coming in 2027

From September 2027, students will have access to new qualifications designed to provide clear routes into further study, training, higher education and skilled employment. Every young person is different, and these qualifications are designed to give students clear choices that match their strengths, interests and ambitions.

These reforms are being introduced at a time when employers are facing skills shortages and technology is transforming the workplace. The new pathways are designed to help young people develop the skills, knowledge and confidence they need to progress into further study and future careers.

Alongside A Levels (academic) and T Levels (technical), new vocational qualifications called V Levels will become available, offering students a vocational, high-quality route to future opportunities.

New Foundation Certificates and Occupational Certificates at level 2 will support students to build knowledge, skills and confidence before progressing to level 3 study or skilled employment.

- We will be offering: [INSERT QUALIFICATIONS]

- Contact[Email]

Employer engagement template

Employers play an important role in helping students understand and progress into future careers.

Use the template as provided or adapt it to reflect local priorities and employer partnerships.

By working with providers, employers can:

- Raise awareness of career opportunities
- Support students through employer encounters
- Help students understand workplace expectations
- Strengthen links between education and employment

Editable employer letter

Parent/carer and student Frequently Asked Questions (FAQ) document

Download this FAQ document which includes questions and answers that we expect parents and students may ask.

Top questions include:

What is a V Level?
How are V Levels different from T Levels?
Can I progress to university?
What are Foundation Certificates?
What are Occupational Certificates?

This can be downloaded and shared using social media assets or printed and used at open events when promoting the new qualifications – **FAQ Parents/ carers and students**

Purpose: explainers and posters

These explainer leaflets, posters and FAQ provide an accessible introduction to key aspects of post-16 qualifications reform.

These assets can be:

- Displayed at open events
- Shared on websites and virtual learning environments
- Included in presentations
- Printed for schools, colleges and careers events

Audience

- Students
- Parents and carers
- Staff members, including careers professionals
- Employers

Format

These are available in a range of formats including A4 print ready and PDF formats. They can be downloaded by using the download and publish button.

Explainers

Purpose: provides detailed information leaflets to explain V Levels, Foundation and Occupational Certificates.

What is the Foundation Certificate?

The Foundation Certificate is a one-year Level 2 qualification, for students who after their GCSEs, want to progress to level 3 and would benefit from the support and preparation the programme provides to get ready for the next level.

Foundation Certificates provide a broad introduction to the subject, to help inform student choice about the career they want to pursue and which further study option will get them there, including V Levels, T Levels or A Levels.

Foundation Certificates will be available from 2027.

What can you do with a Foundation Certificate?

After completing a Foundation Certificate you can progress to a range of next steps, including V Levels, T Levels and A Levels. You will need to meet your provider's entry requirements for these qualifications.

 Department for Education

AVAILABLE FROM AUGUST 2027

Guide to the Foundation Certificate

The Foundation Certificate is focused on building strong foundations to support progression into further study.

SUBJECTS AVAILABLE IN 2027:
Digital Systems and Data Education

What to expect from a Foundation Certificate

- **A stepping stone to level 3 study:** prepare for your next step whether that's to progress to V Levels, T Levels, A Levels or other courses.
- **Build relevant knowledge and practical skills:** develop the understanding and skills you need to help you decide on your future study options and career path.
- **Learn through real-world practical activities:** get involved in hands-on, work-related tasks that help you apply what you learn in realistic situations and put theory into practice.
- **A supportive and flexible study programme:** typically one-year, with English and/or maths alongside if needed. You'll take part in enrichment and personal development activities, to build confidence and prepare you for future success.

What is an Occupational Certificate?

The Occupational Certificate is a two year qualification, for students who after their GCSEs, are clear about the type of work they want to move into and need job-focused preparation.

Occupational Certificates provide students with practical, job-focused learning that builds the skills and knowledge needed for specific roles, aligned to employer standards.

Occupational Certificates will be available from 2027.

What can you do with an Occupational Certificate?

After studying an Occupational Certificate, a student could progress into related skilled work or an apprenticeship.

 Department for Education

AVAILABLE FROM AUGUST 2027

Guide to the Occupational Certificate

The Occupational Certificate prepares students for specific careers, offering job-focused training and a clear route into skilled work or apprenticeships.

SUBJECTS AVAILABLE IN 2027:
Early Years Practitioner
Culinary Skills
Hospitality

What do Occupational Certificates offer?

- **Designed for real jobs and practical skills:** Occupational Certificates focus on the knowledge and hands-on skills needed for specific roles, with content aligned to employer-defined occupational standards.
- **A clear route into employment or apprenticeships:** these qualifications prepare students for skilled work or progression into apprenticeships, giving them the experience and confidence to enter the workplace.
- **In-depth learning over two years:** studied as part of a two-year programme, they allow students time to build technical skills, alongside English, maths, wider employability and personal development.

What are V Levels?

V Levels are a new flagship vocational qualification that sit alongside A Levels and T Levels. They are designed for students who want vocational learning, real-world skills, and the flexibility to keep their options open. V Levels will be available from 2027.

What can you do with a V Level?
After studying a V Level, a student could progress into related higher education or work-based training, including apprenticeships.

 Department for Education

Where do V Levels fit?

V Levels are level 3 qualifications, the same level as A Levels and T Levels.

SUBJECTS AVAILABLE IN 2027:
Accounting and Finance
Digital Systems and Data Education

AVAILABLE FROM AUGUST 2027

Guide to V Levels

What do V Levels offer?

- **A flexible, career-focused alternative at level 3:** V Levels are broad, vocational qualifications (the same size as an A Level) that combine applied learning with sector-based knowledge, helping students explore careers without specialising too early.
- **Build skills that employers and higher education value:** Designed with employers and higher education, V Levels develop practical, transferable skills linked to real jobs, supporting strong progression into higher education or work-based training including apprenticeships.
- **Clear, high-quality pathways for future success:** V Levels can be taken as a full study programme or combined with other qualifications. They are designed so students can progress as successfully as with A levels, giving clear and flexible routes to their next step.

Department for Education

WHY IS THE GOVERNMENT REFORMING POST-16 TECHNICAL AND VOCATIONAL QUALIFICATIONS?

England's post-16 qualifications system must respond to a changing world.

	Nearly 900,000 additional skilled workers will be needed in priority sectors by 2030.
	Around 1 million young people are not in education, employment or training.
	Skills shortages, complex career routes and technology and AI are all reshaping the labour market.
	We want to give young people a broad range of options.

OUR AMBITION

	Strong progression Support progression into further study, apprenticeships or employment
	Equal value Make academic, vocational and technical options equally valued.
	Clarity of choice Give every young person clear choices so they can plan confidently for their future.

What will change?

The reformed system will offer clear pathways at every stage:

At level 3:

- A Levels – Academic
- V Levels – Vocational
- T Levels – Technical

This is the biggest reform to vocational education in a generation and a key part of supporting economic growth and opportunity.

At level 2

- Foundation Certificate (part of the Further Study Pathway) – preparing for studying V Levels, T Levels and A Levels.
- Occupational Certificate (part of the Occupational Pathway) – preparing for skilled employment.

These changes will help students choose the option that suits them best.

This is the biggest reform to vocational education in a generation and a key part of supporting economic growth and opportunity.

WHAT IS A V LEVEL? NEW

V Levels explained

A new vocational choice after GCSEs

A new option for 16 year olds from 2027.

Focus on vocational subjects, with applied learning and assessment that helps you show both your knowledge and skills.

Can be taken alongside other V Levels or A Levels, as well as English and maths if needed.

Designed to help you explore careers.

Why it matters:
More choice
More flexibility
More ways to find what suits you.

Support progression to related higher education or work-based training, including apprenticeships.

V LEVELS

Department for Education

POST-16 PATHWAYS

Who are V Levels for?

V Levels are ideal for students who:

Want real-world skills without specialising too narrowly.

Are aiming for higher education or work-based training and want applied learning.

Want flexibility while exploring future career options.

V LEVELS

Department for Education

POST-16 PATHWAYS

What are V Levels?

V Levels are a new flagship vocational qualification for 16–18 year olds that sit alongside A Levels and T Levels.

Designed for students who want vocational learning, real-world skills, and the flexibility to keep their options open.

Available from 2027.

V LEVELS

Department for Education

POST-16 PATHWAYS

What makes V Levels the vocational option?

Focused on practical, work-related use of knowledge and real-world skills.

V Levels will be linked to employer job standards, giving employers confidence in what students have learned.
